AIRplus[®] by STOROPack

AIRplus[®] from Storopack offers quality machines that create versatile air-filled film packing materials. AIRplus[®] films combine reliable protection and multiple uses with cost-saving features for the ideal in-the-box packaging products. Their lightweight properties lower shipping costs, and because you're creating the inflated packing materials on-demand they require minimal storage space and handling in your facility. Using AIRplus[®], your packaging will be consistent and controlled. You'll appreciate the low labor requirements and ease of production as well as its clean, dust-free characteristics.

Effective. Easy. Low-cost.

- AIRplus[®] is effective. Its strength and durability offer reliable protection for your products.
- AIRplus[®] cuts costs. Saves storage expense plus the light weight keeps your shipping costs down.
- AIRplus[®] is flexible. Pick the machines and the films to meet your requirements. All films can be used on all machines.
- AIRplus[®] is easy. The rolls of film are light and easy to handle. The machines are easy to operate, fast and reliable.
- AIRplus[®] offers environmental benefits. It's reusable and the film is recyclable.
- AIRplus[®] is versatile. Machines are compact and portable allowing them to integrate easily into your packaging area.

Watch for this functionality key

This convenient guide is shown throughout our catalog to help you choose the right AIRplus[®] product. The functions highlighted on the side of the box ensure you're getting the product that will meet your packaging needs.

Cushion:

Absorbs shock. Protects products.

Void-fill:

Fills empty space and keeps products from rattling in the box.

Block and Brace:

Holds heavy items or single objects in place inside the box.

Wrap:

Covers product surfaces to avoid contact damage and provides optimal protection against scuffing and scratching.

AIRplus® Void Film

A fast and cost-effective packaging product

Functionality:

- ✓ Cushion
- ✓ Void-Fill
- ✓ Block & Brace

- Fast and neat production
- Available in multiple sizes
- Individual print available
- Runs on all AIRplus® machines

AIRplus® Void Film is created using a triple layer extruded film process to provide durability and reliability. The outer layer provides a non-slip surface to prevent movement in the box, the middle layer helps to hold the air and offers reinforced strength, and the inner layer provides special heat-sealing properties to prevent deflation. AIRplus® Void Film serves as a fast and neat void-fill, a durable block and brace product, and a reliable cushioning material for light- to medium- weight objects.

Using AIRplus® Void Film for cushioning protects this gift tower of decorative boxes.

AIRplus® Void Film easily blocks and braces stacked items such as books.

Multiple film choices for unlimited packaging needs

AIRplus® Void Film

Roll Width	Pillow Size	Roll Length
8"	4"	2900'
8"	6"	2900'
8"	8"	2900'
8"	12"	2900'
10"	4"	2900'
10"	6"	2900'
10"	10"	2300'
10"	15"	2300'

A fast and easy void-fill material, AIRplus® Void Film prevents items like small packages of hardware from shaking open in the box.

AIRplus® Cushion Film

A multi-purpose, reliable packaging material

Functionality:

- ✓ Cushion
- ✓ Void-Fill
- ✓ Block & Brace
- ✓ Wrap

- Bend, fold and wrap around products
- Provides bubble on-demand
- Versatile multi-use product
- Fast and easy to use
- Runs on all AIRplus® machines

AIRplus® Cushion Film is an extremely versatile and durable packing product made with the same triple layer film process as Void Film air pillows. Each perforated section of AIRplus® Cushion Film is divided into 16 air chambers making it flexible enough to wrap, bend and fold the film around products for multiple uses and optimum protection.

Protect unpackaged china by looping AIRplus® Cushion Film around and between the plates for cushioning.

AIRplus® Cushion Film is rolled and positioned around this DVD player giving block and brace protection.

Multiple film choices for unlimited packaging needs

AIRplus® Cushion Film

Dimensions	Cushion Size	Roll Length
15.75"	9.84"	1475'
15.75"	9.84"	1066'

AIRplus® Cushion Film acts as void fill to protect expensive consumer packaging.

AIRplus® Cushion Film easily wraps around and protects individual unpackaged items such as the candles in this box.

AIRplus® Machines

Versatile, cost-effective packaging products save time, space and shipping costs

Fast, Efficient Production

Storopack AIRplus® machines are fast, compact, portable and extremely easy to operate. All AIRplus® models are completely programmable, offer quick and easy loading, and are among the most reliably built in the industry. With their small footprints and large production capacities they fit easily into any packaging environment — regardless of volumes. In addition, AIRplus® offers optimum flexibility with multiple packaging options since you can interchange any of our AIRplus® films on any AIRplus® machine and adjust the amount of air in the film materials for different applications.

- **Portable**
- **Integrates easily into single or multiple packing stations**
- **Run any AIRplus® film product on any machine**
- **Adjust air fill for specific packing requirements**
- **Easy to load and operate**
- **Stand or table top operation**
- **Stands offer accessories to advance rolls, check bag accumulation and automate production**

Stands and accessories are available for both AIRplus® models. The AIRplus® Accelerator is a bin with a built-in photoeye that continually checks bag accumulation and automatically initiates production when inventory drops below a certain level.

AIRplus® Excel

AIRplus® Excel is a hard-working machine with versatile features. Easily integrated almost anywhere in your packing environment, Excel can be placed on a tabletop or used on a stand that will hold up to three rolls of film for non-stop production.

Specifications

Size:	18" W x 22" H x 15" D
Weight:	42 lb.
Speed:	45 feet per minute
Power:	120 V - 2 amps
Air Supply:	Ambient

AIRplus® Mini

AIRplus® Mini is a smaller version of the AIRplus® Excel. In addition to improved handling when changing film rolls, the Mini machine offers a technical innovation -- a complete heat-sealing unit with automatic calibration for sealing the air cushions. This compact and very quiet machine has a weight of only 20 lb. and can be easily integrated into all packaging processes.

Specifications

Size:	19" W x 16" H x 19" D
Weight:	20 lb.
Speed:	20 feet per minute
Power:	120 V - 2 amps
Air Supply:	Ambient

AIRplus® Integrations

Integration at your service

Storopack AIRplus® machines are compact and portable enough to integrate into any packaging environment. AIRplus® packing materials can be produced on-demand or produced in batches and fed to packing stations through a Storopack designed dispensing system.

Storopack's Systems Integration Department works closely with you to develop a plan that provides the most efficient methods to deliver and use your packing materials. First they carefully analyze your workflow, current process and facility. Their analysis includes consideration of details such as:

- **Ergonomics for working comfort**
- **Pre-produced materials vs. on-demand production**
- **Ease of handling**
- **Speed and ease of supply material loading**
- **Maximum use of facility space**
- **Accessibility for machine maintenance**
- **Environmental issues**
- **Consideration of plans for future changes ...and more**

After a thorough analysis our engineers go to work to develop a proposal that effectively integrates the new machines into your existing facility or, if appropriate, a completely new layout of your packaging area. Our proposal is sent to you with drawings showing a clear picture of where and how the machines will be integrated into your facility so you'll be able to judge the added value of your investment. Once we receive your approval Storopack will deliver and install your new systems within 6 to 8 weeks.

Integration with Packaging Table

Standard single packing table with AIRplus® Mini feeding inflated Void Film into a convenient dispenser.

Packaging table with an integrated AIRplus® Mini.

Modular and Standard Integration

AIRplus® integrated systems continually feed air bags into bins over the packing station for quick and convenient access.

Example of a AIRplus® silo integration.

AIRplus® machines keep packing materials readily available by continually filling multiple access storage bins over packing stations.
